Auto Pay Utility Bills

Residents can automatically pay their utility bills from checking or savings accounts. Call 651-280-6883 or visit the City's website for an automatic payment authorization form.

Utility Billing Info

Find additional information on the website.

To set up a new service, notify changes in residency or inquire about fees and billing call 651-280-6883.

Farmington residents are billed quarterly for utilities and garbage. Your bill is determined by your consumption, with the exception of the storm water and street light utility.

GARBAGE: This fee is based on the container size you choose (30, 60, or 90 gallons) for once a week collection and includes recycling service.

SEWER: Sewer fees are based on winter quarter usage. The amount you are billed each quarter includes a base fee of 10,000 gallons (minimum) plus an additional fee for each 1,000 gallons of water used above 10,000 gallons.

STREET LIGHT: This fee is collected from residents and businesses for the maintenance of City street lighting at locations throughout the community.

STORM WATER UTILITY: A flat fee for a residential unit per quarter is collected for the purpose of managing the City's storm water through the maintenance of storm sewers, ponds, and drainage ways.

WATER: A base fee plus additional fees rated according to the following levels of use are structured to encourage water conservation: under 20,000 gallons, at 20,001 - 40,000 gallons, and over 40,001 gallons. The City observes year round water use restrictions.
